SmartstARTS !! Learning Through The Arts

Does your child love to dance to music, to sing, to pretend and to tell stories? The SMARTSTARTS PROGRAM takes full advantage of this characteristic. Through Dance we not only develop coordination, muscle strength and grace but we also teach children math and science. Music not only teaches rhythm and pitch but also teaches pattern recognition, fraction and addition.

Through Puppetry we help children communicate and learn history; and our FRENCH AND SPANISH classes enrich their minds.

The Arts are a child's natural languages.

MAKE THEM

SMARTSTARTS!

MATH through MOVEMENT

HISTORY through ART

French & Spanish

The marvels of the French and Spanish language and culture come to life through action, dancing, music, and our puppet shows. With our book and tape featuring FROUFROU LE LAPIN (CARLOS CONEJO) children soon pick up the rudiments of these beautiful languages. We believe that exposing your child to a second language creates flexibility of mind and a knowledge and enjoyment of other cultures. (all ages, including toddlers)

French & Spanish Family Fun

Music, dance, art, cooking and puppet shows involve the entire family in the learning process.

Adults not only learn with the children but also acquire a wealth of ideas on how to continue the learning at home and speak together in the target language.

For beginner and intermediate learners.
